

User Friendly Design

Panasonic is committed to producing machines that suit the needs of ALL people.

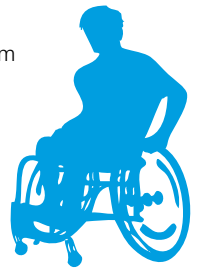

- Remote Operation Panel
- Adjustable Control Panel
- Easy Lifting ADF handle
- Tactile Cues

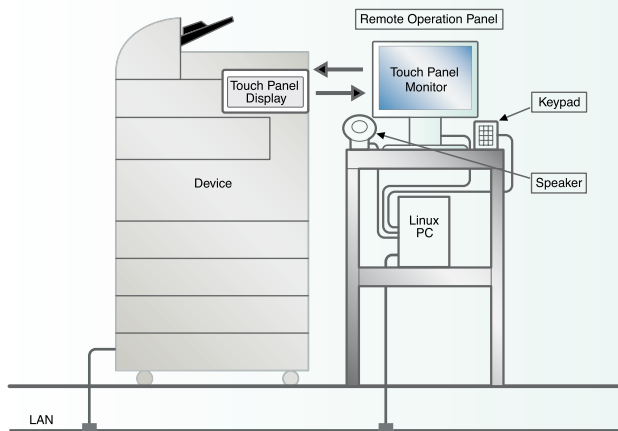

Panasonic ideas for life

At Panasonic we design products with accessibility in mind. We offer a wide range of high-quality products, services, and custom applications that meet the obligations required under section 508. Our MFPs come with features such as a 4-way adjustable control panel with concave buttons, an easy lifting ADF handle, and tactile cues in various spots for the visually impaired. In addition to that, our 60 ppm MFPs have an optional lower height system stand for easy wheelchair accessibility and our 23 - 45 ppm MFPs have an optional finisher to enhance its printing capabilities to that of the standard height units.

Remote Operation Panel Software DA-UD320

- Allows the main touch screen controls for each function to be controlled from a remote PC
- Comes with a large touch panel or keypad for a visual and audible graphic interface for the hearing - and visually-impaired
- Large, easy to navigate graphic operation panel
- Voice-driven navigation system

Using the Remote Operation Panel requires a Linux PC connected to a LAN, a keypad, touch panel monitor, and a speaker.

Concave buttons for ease of use

Easy Lifting ADF handle

Tactile Cues for the visually impaired
